

Interprofessional Team Engagement Series

Summary Report – Feb 2023 to Feb 2024

VANCOUVER PRIMARY CARE NETWORKS

This monthly online lunch-time engagement series started in February of 2023 to support teams working together in PCNs. The goals of the series are to learn, connect and share questions and experiences to help IPT Clinicians and Primary Care Providers optimize how they work together to support their patients.

9 sessions

- ANXIETY
- PAIN
- OBESITY & OZEMPIC
- MARIJUANA MISUSE
- INTIMATE PARTNER VIOLENCE
- LOW-SOCIOECONOMIC STATUS
- DIABETES
- DEPRESSION
- WORK-LIFE BALANCE

FORMAT:

A fictional case study is used to describe how IPT clinicians would use a multidisciplinary approach to care.

IPT Clinicians present on how they would support the patient.

ATTENDEES:

- Family Physicians
- Nurse Practitioners
- Registered Nurses

32

Average # of attendees per session

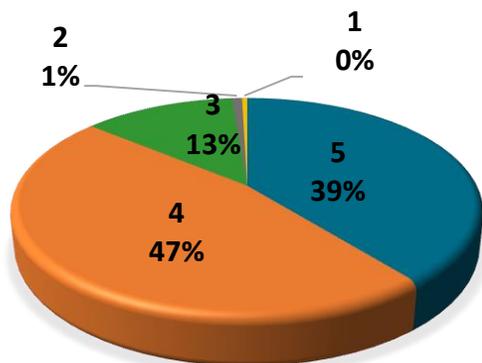

Total number of attendees to all sessions: 290

SESSION EVALUATION DATA

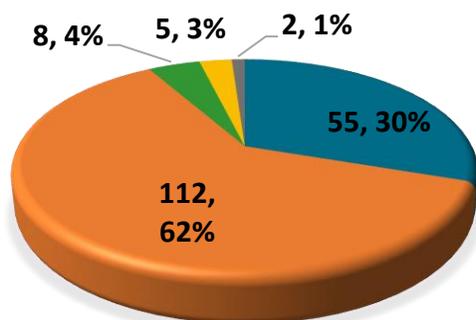

*Data has been aggregated across all 9 sessions

1=LOW, 5=HIGH

ON A SCALE OF 1 – 5, HOW VALUABLE DID YOU FIND THE SESSION?

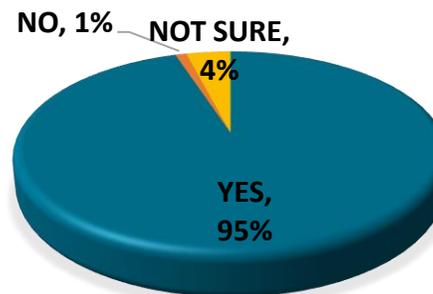

ON A SCALE OF 1 – 5, DO YOU FEEL YOU WILL BE ABLE TO APPLY THE KNOWLEDGE GAINED

Breakout rooms allow for more intimate discussions.

WOULD YOU RECOMMEND THESE SESSIONS TO A COLLEAGUE?

“...I now understand why my patients benefit so much from the IPT referrals. Even though the sessions are limited, they are designed to give patients new directions that their family doctors can follow up on.”

“Learned more about what appropriate referrals to various disciplines are.”

“Great to see examples of how complex issues can be managed by different team members, excellent reminder to refer these patients rather than trying to do it all myself in a 15 min. medical visit.”
