

HEALTH INFORMATION SHARING

Date: _____

From Primary Care Providers to School Staff

This 2-page fillable form is a communication tool for primary care providers to share information with the student's school staff. The school has a similar tool for the school staff to share information back to you. The categories identify key information that the school staff are interested in learning about the student. Please pass the completed form to the student's parents or guardian to bring to the school staff to ensure confidentiality policies are met.
