

First steps:

- Determine competency

Number of visits:

- 3-6, depends on all circumstances

Challenges to overcome/concerns:

- Difficult to declare competency

Case assumptions:

- Mood OK
- Maybe dementia
- Does ADLs
- Good family support
- No caregiver burnout
- Not socially isolated

Tools/assessments:

- Geriatrician referral

Questions/Concerns/Limitations:

- Is she being abused physically? Bruises.
- Document everything when there is family conflict
- Family mediation can be tricky
