

PCN Clinical Pharmacist Co-location

What is it?

A PCN Clinical Pharmacist can be co-located at your clinic on a regular schedule to fit your needs.

This model of care facilitates:

- Referrals to be tasked to the PCN Pharmacist via the clinic's EMR prior to their visit
- In-clinic appointments, meetings, and/or educational sessions for patients and providers
- Case conferencing that can be done in-clinic and directly with the PCN Clinical Pharmacist
- PCN Clinical Pharmacists to provide consult notes including their assessment and recommendations directly in your clinic's EMR

What are the benefits?

The PCN Clinical Pharmacist will bring their expertise to support medication management directly to your clinic's context. A Clinic Co-location with EMR Access:

Supports Team-Based Care	Decreases Administrative Burdens	Improves Capacity for Patient-Centered Care	Supports Case Finding Opportunities
Effective communication with the PCN Pharmacist about patient care, drug, & medication questions Direct messaging with the PCN Pharmacist Supports privacy and confidentiality	Streamlined referrals as the PCN Pharmacist can review the patient's history Consult summary notes are directly embedded Care questions can be tasked directly to the PCN Pharmacist	Patient Education over 30 or 60 minute appointments to resolve questions and concerns from the patient. The PCN Pharmacist can answer complex drug information questions to support shared decision-making	The PCN Pharmacist can review the provider's EMR to identify appropriate referrals Note: All activities associated with case finding require consent from the treating provider
